Rochester, NY

Single-biggest mass travel event in the USA!

Who's in Charge?

The Total Solar Eclipse will be the single-biggest mass travel event in the USA in 2024, yet it **doesn't come with a manual or a trident bestowing power to one entity to serve as executive director and producer of the magnificent show that will grace our sky.**

Everyone is left to their own creativity based on their own level of enthusiasm.

What we do know is that people outside the path of totality will migrate towards the centerline along the path of least resistance without regard to jurisdictional lines, policies, or protocols. Need to be ready without specific top-down guidance.

Top 3 Actions
in Your Power
*(Do Without
Permission!)*

1. Educate Yourself

Open your mind | Read
Follow | Attend | Browse

2. Use Your Network

Introduce yourself | Meet up
Seek neutral forces

3. Act

Join a Task Force | Create
Convey your findings
