

TOTALITY!

theHoustonMuseumofnaturalscience

Totality! Free Eclipse Planetarium Show

- Learn about the **geometry**, the **history**, and the **beauty** of solar and lunar eclipses.
- Learn **where to go and how to observe** them safely.
- Produced by the Houston Museum of Natural Science in conjunction with Rice University (Carolyn Sumners and Patricia Reiff, producers)
- With partial financial support from NASA HEAT program and ePlanetarium
- **No charge** for the 50-year license; only a modest formatting fee.
- 24-minute full version plus a 10-minute short version for public events
- **Educator guide** with pre/post tests, study questions, and more

FORMATS:

Available in English and Spanish audio, with English and Spanish subtitle files
Fullscreen mp4 formats available: 1080, 2048 and 4096 fisheye, 1920x1080 and 3940x2160 pre-warped
4096 fisheye dome master sets available

Also available in "Flatscreen" mp4 (free to the media and K-12 schools without planetariums (of course it is designed for fulldome, so the "flatscreen" version will miss or distort some content.)
